The web client can utilize auto-login with the correct dependencies, which include:
- The workstation you are logged into utilizes your ADIT account.
- The workstation you are using is running Microsoft Windows.
- The browser you are using is either Internet Explorer or Google Chrome
- You are on the campus network via WiFi, wired ethernet, or VPN

Launch Internet Explorer with one of the following two methods using Windows 10:

Click inside the "Type here to search" box on the taskbar and type "internet explorer":

**Method 1:**

![Internet Explorer search method]

**Method 2:**

Right Click the Windows Start button on the taskbar and select "Run":

![Windows Start button method]
Type "iexplore" and click "OK":

With Internet Explorer (IE) open, perform the following steps:

1. Click the cogwheel in the upper right corner, and the "Internet Options" in the dropdown

2. Click the "Security" tab, then click "Trusted sites", followed by "Sites" button
3. In the textbox "Add this website to the zone:" enter: https://onbase.mines.edu
Click "Add", followed by "Close"
4. Click "Custom level..." scroll down to "User Authentication" section, click the radio button for "Automatic login with current user name and password" and then "OK"
Select a zone to view or change security settings.

Internet  Local intranet  Trusted sites  Restricted sites

Trusted sites
This zone contains websites that you trust not to damage your computer or your files.
You have websites in this zone.

Security level for this zone

Custom
Custom settings.
- To change the settings, click Custom level.
- To use the recommended settings, click Default level.

☐ Enable Protected Mode (requires restarting Internet Explorer)
Custom level… Default level

Reset all zones to default level

OK  Cancel  Apply
5. Click "OK" in the Internet Options window to accept and close.
6. If you have any browser sessions currently open, close them completely and re-open.

7. Navigate to Trailhead and login. Once logged in, click the "Onbase" button in the Go Bar:
